The sleeveless top covers that extra skin in the armhole area, and both pieces feature an "essence of waist". Stay Tape

\$4.50

Keep those shoulder seams from drooping with this sheer straight tape that stabilizes and supports without adding bulk to your garment.

Point Presser/Clapper

\$30.00

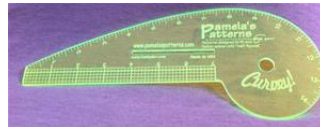

When the heat from an iron is too much for fabric to withstand, the use of a Clapper is essential for quality pressing. This high-grade wood clapper allows it to hold heat and steam for pressing seams and flattening hems. The hand-carved point helps to turn-out perfect corners, cuffs and lapels. This tool is a "must-have" for anyone who makes garments! Custom made by Lotus Woodworks.

Curvey! Fashion Ruler

\$16.00

Based on the well-known French curve fashion ruler, our Curvey! is smaller, more compact, more manageable, easier to use than traditional fashion rulers, which come in three parts and are nearly two feet all. Curvey! gives you the most-used functions, curves and straight edge, in an easy-to-use, easy-to-store, easy-to-find 11" by 4 1/2" tool.

Reliable V100 Steam Iron

\$169

Enjoy professional ironing quality and speed with the simplicity of using a traditional iron. The V100 incorporates an internal heating element and pump system that produces more steam continuously than conventional irons. This guarantees a professional finish to your garments. Digital thermostat controls the temperature with far greater accuracy. Safe to use on delicate wool fabrics. Features an acoustic warning device that beeps when the desired temperature is reached when the auto shut-off safety system is activated and each time you press a select button.
