

# Royal MRY7910 Shampooer/Extractor

**3 Year  
Warranty**

- The Royal Precision carpet extractor has two suction nozzles, not just one like other extractors. That means dirty water never has a chance to soak into your carpet so you get a drier, cleaner carpet. Plus, it has two revolving brushes that rotate in opposite directions so your carpet gets cleaned from all sides.
- Switches in the handle turn the power, soap dispenser, and revolving brushes on and off with the touch of a finger.
- Royal Precision has a separate soap dispenser that automatically measures the correct amount of soap and mixes it with clean water, so there's no more guessing about the right amount to use.
- Because the soap is separate from the clean water, you can turn the soap dispenser off to rinse the carpet you've just shampooed. A clean water rinse removes sticky soap residue that can attract new dirt more quickly, and it's easy to do with Precision.
- The clean and dirty water tanks are easy to fill and empty, making your work go faster. Plus, Precision's dirty water reservoir is larger so you don't have to waste time running back and forth frequently to empty it.

## Want To Make Your Shampooer Clean Better?

You can improve the cleaning effectiveness of a shampooer by using a high-grade shampoo. One of the BEST is Extract'aire by Lindhaus. Found in both our Centers, Lindhaus Extract'aire is organic alcohol-based with the following advantages:

- \* Dries your carpets quicker
- \* The organic alcohol disinfects
- \* It is VERY concentrated
- \* It does NOT leave a residue!
- \* Deodorizes naturally
- \* Contains optical brighteners
- \* Reduces allergens
- \* Contains NO chlorinated solvents
- \* Contains NO petroleum distillates
- \* Is VERY effective at removing stains

It is SO good at removing spots and stains, Lindhaus developed an organic alcohol-based stain remover called Velocity. It's our most popular stain remover!

**Ask about our organic-alcohol based stain remover. It removes over 2000 stains!**
